BIOCHEMISTRY
Volume 45, Numbers 1-12, 1980

(A translation of Biokhimiya)

Volume 45, Number 1, Part 1 January, 1980

	Engl./Russ.
A New Ultrasonic Method of Studying the Composition and Properties of Polyenzyme Systems: Enzymes of the Cellulase Complex – A. A. Klesov and I. V. Churilova	1 3
Physicochemical and Functional Characteristics of Mitochondrial Polyribosome of the Yeast Saccharomyces cerevisiae – S. G. Babich and T. B. Kazakova	7 11
Purification and Properties of Levansucrase of Gluconobacter oxydans L-1 – V. I. Élisashvili	14 20
Nuclear and Cytoplasmic Synthesis of Proteins in Synchronized Ehrlich's Tumor Cells – S. D. Kazymin and S. D. Sherban	20 28
Influence of pH and Ionic Strength of the Medium on the Interaction of Various Histone Fractions and Protamine with Immobilized Histone H4 – S. N. Khrapunov, S. N. Kadura, and G. D. Berdyshev	26 35
Affinity Chromatography of Menadione Reductase – É. P. Titovets	31 42
Change in the Buoyant Density of Mitochondria during Starvation and Feeding of Planaria – A. V. Kotomin and G. V. Dontsova	36 48
Interaction of Cholesterol with Apoprotein E – An Arginine-Rich Protein of Very Low Density Lipoproteins – G. V. Titova, N. N. Klyueva, K. A. Kozhevnikova, and A. N. Klimov	38 51
Influence of Erythropoietic Factors on the Synthesis of Various Chains of Hemoglobin in a Culture of Erythroid Cells – N. F. Starodub, V. P. Artyukh, A. N. Gritsak, and G. M. Rekum	42 56
Biosynthesis of Collagen in a Cell-Free System from Wheat Germ on Poly(A)-RNA Isolated from Membrane-Bound Polyribosomes of Chick Embryos – A. E. Berman, N. P. Gornaeva, T. A. Oborotova, and V. I. Mazurov	48 63
Tiron as a Spin Trap for Superoxide Radicals Formed by the Respiratory Chain of the Submitochondrial Particles – I. V. Grigolava, M. Yu. Ksenzenko, A. A. Konstantinov, A. N. Tikhonov, T. M. Kerimov, and É. K. Ruuge	57 75
Mathematical Description and Investigation of the Principles of Functioning of the Folic Acid Cycle – I. N. Vorontsov, M. M. Greshilov, A. K. Belousova, and G. K. Gerasimova	62 83

Volume 45, Number 1, Part 2 January, 1980

Effects of Sodium Selenite on RNA Synthesis in Loach Embryos – G. B. Abdullaev, N. Kh. Mekhtiev, F. I. Abdullaev, and K. A. Kafiani	77 98
Cause of the Decrease in Effectiveness of Ca^{2+} Transport by Fragments of the Sarcoplasmic Reticulum under the Action of Acetylcholine – O. V. Esyrev, V. B. Ritov, Zh. K. Uspanova, M. K. Murzakhmetova, and Zh. A. Nusupova	81 103
Interaction of Indoleamines with Serotoninergic Receptors of the Brain Synaptosomes – M. G. Uzbekov and Kh. G. Bernshtein	85 109
Synthesis of Nucleic Acids and Proteins in the Livers of Rats of Different Lines, Depending on Age – A. I. Bozhkov, Ts. M. Shereshevskaya, and N. M. Martynyuk	88 113
Determination of the Half-Life of Key Enzymes of the Pentose Phosphate Pathway – Glucose-6-Phosphate Dehydrogenase and Transketolase – G. V. Kudryavtseva, and I. I. Denisova	92 118

	Engl.	Russ.
Proteins of Bacterial Membranes. Purification of Water-Soluble ATPase from Acholeplasma laidlawii – A. B. Kapitanov, V. P. Noskova, and V. F. Ivanova	97	124
Polypeptide of the Virion in Nuclear Polyhedrosis of the Silkworm Bombix mori – É. A. Kozlov and S. B. Serebryanyi	102	130
Some Kinetic Properties of Alkaline Ribonuclease of the Rat Brain – E. P. Shelepina	107	137
Study of Certain Physicochemical Properties of Trophoblast-Specific β_1-Globulin – O. P. Shevchenko, D. D. Petrunin, Yu. S. Tatarinov, and T. M. Tsagaraeva	111	142
Presence of Antigen Determinants in mRNA-Containing Ribonucleoprotein Particles of Immune B-Lymphocytes – A. I. Nikolaeva	114	146
Mechanism of the Inhibition of the Polymerization of Fibrin by Fibrinogen and Its Active Fragments – V. A. Berlitser, T. V. Varetskaya, and S. A. Kosterin	123	157
Determination of the Degree of Conservativeness of Ribosomal Genes in Representatives of Certain Types of Invertebrates – N. B. Petrov, A. B. Poltaraus, and A. S. Antonov	129	165
Investigation of the Maturation of Ribosomal RNAs in Rat Thymus Cells – V. I. Evtushenko and K. P. Khanson	135	173

Volume 45, Number 2, Part 1 February, 1980

Some Aspects of Structural and Functional Organization of Protein Hormone Molecules – Yu. A. Pankov and V. I. Pozdnyakov	141	195
Method of Evaluating Changes in Free Energy of Proteins and Biomembranes upon pH-Induced Conformational Transitions. Coupling Membranes of Pea Chloroplasts – V. K. Opanasenko and A. D. Makarov	153	210
Comparative Characterization of Mitrochondrial and Microsomal NAD(P)H-Dependent Lipid Peroxidation – L. F. Osinskaya and V. N. Chumakov	158	217
Relationship between Kinetics of Hydrolysis of Soluble and Insoluble (Natural) Cellulose by Multienzyme Cellulase Complexes – A. A. Klesov and S. Yu. Grigorash	166	228
Catalytic and Kinetic Properties of ATPase From Bovine Myometrial Sarcolemma – M. D. Kurskii, V. P. Fomin, and V. K. Rybal'chenko	177	242
Structural Characteristics and Growth Activity of Sperm Whale Somatotropin and Its Fragments – A. A. Bulatov, T. A. Osipova, A. L. Sinitsyna and Yu. A. Pankov	182	249
Purification and Some Physicochemical Properties of Bovine Brain Glutamate Dehydrogenase – L. V. Karabashyan, S. A. Agadzhanyan, V. M. Sadaryan, and S. G. Movsesyan	189	258
Comparative Characterization of Hirudin From Whole Leeches and Leech Heads and Bodies – I. P. Baskova and D. U. Cherkesova	195	266
Interaction of o-Phenanthroline Complexes of Cobalt and Copper with Photosynthetic Electron Transport and Energy Coupling Systems in Reaction Centers and Chromatophores of Purple Bacteria – E. P. Lukashev, A. A. Kononenko, N. I. Zakharova, A. B. Rubin, G. N. Novodarova, E. M. Kolosova, and M. E. Vol'pin	200	273

Volume 45, Number 2, Part 2 February, 1980

Modification of Tyrosine Residues in Protein Inhibitor of Proteinases from Potatoes – L. A. Dronova, A. I. Shul'mina, and V. V. Mosolov	209	285
Kinetic and Regulatory Properties of Myocardial Adenylate Deaminase – V. A. Pekkel', A. Z. Kirkel', and V. Z. Gorkin	213	290
Investigation of Equilibrium between Carbamide Synthesis and Hydrolysis in Presence of Urease – T. P. Terekhina and N. S. Rabovskaya	220	299
Porcine Liver Transketolase: Covalent Binding between Coenzyme and Protein – P. P. Filippov, N. K. Tikhomirova, A. N. Koterov, I. K. Shestakova and G. A. Kochetov	226	305

Heterogeneity of Histone H1 in Cells with Blocked Genome — E. P. Kharchenko, N. N. Nalivaeva, and V. N. Kokryakov 231 311
Role of Arginine Residues of Bacterial Formate Dehydrogenase — V. I. Tishkov, V. O. Popov, and A. M. Egorov 237 317
Immunochemical Characterization of Proteolytic Enzymes (BAPAases) from Buckwheat and Rye Seeds — Ya. E. Dunaevskii and M. A. Belozerskii. . . 244 325
Isolation and Characterization of Endo-N-Acetylmuramidase Produced By *Actinomyces levoris* — E. P. Savel'ev, G. I. Petrov, Z. F. Shmakova, and S. A. Bitko. 247 329
Influence of ATP on Thermosensitivity of Phosphoprotein Phosphatase — G. K. Parsadanyan, L. P. Ter-Tatevosyan and G. T. Adunts 254 337
Mechanism of Decrease in Inducibility of Tyrosine Transaminase By Carcinogenic Aminoazo Dyes. Absence of Direct Influence of o-Aminoazotoluene on Enzyme — N. P. Zakharova, T. T. Glazko, and V. I. Kaledin. 256 340
Influence of 2,3-Dimercaptopropanol on Electron Transport in Second Energy Coupling Point of Respiratory Chain: Evidence in Support of Q-Cycle — M. Yu. Ksenzenko and A. A. Konstantinov 259 343
Mitochondrial Proteinase of Yeast Catalyzing Hydrolysis of Mitochondrial Translation Products — S. L. Kal'nov, L. A. Novikova, A. S. Zubatov, and V. N. Luzikov. 269 355
Proteolysis as an Approach to the Study of the Arrangement of Proteins in the *Micrococcus lysodeikticus* Membrane — I. M. Simakova and D. N. Ostrovskii 275 363
Correlation between Distribution and Inhibition Constants of Inhibitors of Bacterial Agmatinase — V. A. Khramov. 282 371

Volume 45, Number 3, Part 1 March, 1980

Role of Microviscosity of the Lipid Phase of the Microsomal Membranes in the Regulation of the Enzyme Activity of Glucose-6-phosphatase in the Case of Modification of Microsomes in vitro and in vivo — E. B. Burlakova, V. O. Gvakhariya, N. N. Glushchenko, and A. M. Dupin. 287 387
Incorporation of Nitrogenase into Liposomes — L. A. Levchenko, A. V. Raevskii, S. A. Marakushev, A. P. Sadkov, and T. S. Pivovarova 291 392
Chromatography, Delipidation, and Formation of Recombinants of Rhodopsin of the Wall-Eyed Pollock — S. A. Shukolyukov, O. O. Kalishevich, V. A. Tyurin, V. P. Korchagin, S. V. Kotelevtsev, V. E. Kagan, B. I. Mitsner, and N. A. Sololova. 297 398
Mechanisms of the Regulation of the Intracellular Distribution of Ca^{2+} in Adipose Tissue — S. N. Orlov, N. I. Pokudin, and G. M. Kravtsov. 305 408
Phosphorylation of Creatine and the Membrane Potential of Heart Mitochondria — E. A. Liberman, G. I. Khachatryan, L. M. Tsofina, G. B. Elizarova, and V. A. Saks. 313 418
Properties of Anion-Sensitive ATPase of the Plasma Membrane of Rat Liver Cells — A. T. Ivashchenko 317 424
Comparative Characterization of Membrane-Bound and Solubilized 3':5'-AMP-Dependent Protein Kinase from Membranes of the Sarcoplasmic Reticulum of the Myocardium — M. D. Kurskii and A. D. Vorobets 322 430
Study of the Physicochemical Properties of the Proteolytic Enzyme Terrilytin, Modified by a Copolymer Based on Vinylpyrrolidone — T. B. Tennikova, B. V. Moskvichev, and G. V. Samsonov 328 438
Properties of α-Chymotrypsin Covalently Incorporated into Spherical Polyacrylamide Microgranules — E. V. Lukasheva, R. B. Aisina, N. F. Kazanskaya, and N. L. Eremeev 336 449
Analysis of the Heterogeneity of Caspian Sturgeon Gonadotropic Hormone — B. F. Goncharov, A. A. Kuznetsov, and E. Burzawa-Gerard 341 455
Comparative Study of Hirudin and "Pseudohirudin" — I. P. Baskova, D. U. Cherkesova, V. V. Mosolov, E. L. Malova, and L. A. Belyanova 348 463
Formation of an Oligomer Form of Transketolase and Factors That Influence This Process — O. N. Solov'eva and G. A. Kochetov 351 468

Kinetics of the Formation of Enzyme-Substrate Complexes of Cytochrome P-450 in Rat Liver Microsomes — A. V. Mazurov, V. N. Tveritinov, A. V. Karyakin, and A. I. Archakov 356 474

Volume 45, Number 3, Part 2 March, 1980

Properties of Aminoglycoside-3'-Phosphotransferases Determined by Kanamycin Transposons Tn601 and Tn5 — V. L. Ganelin, A. A. Denisov, G. L. Shaposhnikov, Yu. O. Sazykin, and S. M. Navashin 365 483
Study of the Mechanism of Opiate Induction of Permeability of the Mitochondrial Membranes to Potassium Ions — V. V. Chistyakov and G. P. Gegenava 372 492
Analysis of the Reassociation of Rat DNA Fractions — V. I. Prima, O. M. Platonov, and K. G. Gazaryan 376 498
Isolation of Histone from Nuclei of the Protozoan Astasia longa — É. N. Elpidina, T. I. Odintsova, P. P. Gorozhanin, and I. A. Krasheninnikov 384 507
Investigation of the Localization of Polyphosphates in Cells of Microorganisms by the Method of High-Resolution ^{31}P-NMR-145.78 MHz — D. N. Ostrovskii, N. F. Sepetov, V. I. Reshetnyak, and L. A. Siberl'dina 392 517
Purification and Characterization of a Releasing Factor of Polynucleotide Phosphorylase from Rat Sarcoma M-1 — A. P. Tarasov and A. A. Del'vig 398 526
Study of Conformational Changes in Spin-Labeled Native and Modified Phosphorylase B — P. L. Vul'fson, L. K. Skolysheva, L. I. Mikhailova, I. V. Dudich, and V. P. Timofeev 404 532
Influence of Divalent Metal Ions on the Enzyme Activity of Ca^{2+}, Mg^{2+}-Dependent DNase from Sea Urchin Strongylocentrotus intermedius Embryos — N. I. Menzorova and V. A. Rasskazov 413 544
Content and Characteristics of Various Classes of Membrane-Bound Polyribosomes during Development of Chick Embryos — T. A. Oborotova, A. E. Berman, and V. I. Mazurov 421 554
A Carboxyl Proteinase from the Basidiomycete Russula decolorans FR 0456 — G. N. Rudenskaya, A. V. Gaida, and V. M. Stepanov 426 561
Immobilization of Modified α-Chymotrypsin in the Structure of Cellulose Triacetate Films — N. R. Kil'deeva, N. I. Larionova, N. F. Kazanskaya, and A. D. Virnik .. 433 569

Volume 45, Number 4, Part 1 April, 1980

Special Features of the Primary and Three-Dimensional Structure of the Ribosomal Proteins of *Escherichia coli* — Yu. B. Alakhov 439 579
Influence of Prostaglandin $F_{2\alpha}$ on Activity of NADP-Dependent Dehydrogenases — G. V. Kudryavtseva and É. P. Tsarenko 451 594
Cause of Protein Kinase-Induced Increase in Efficiency of Ca^{2+} Transport by Fragments of Sarcoplasmic Reticulum from Fast Skeletal Muscles — É. A. Avakyan, V. B. Ritov, and Yu. P. Kozlov 457 601
Evaluation of Biochemical Criteria of Sensitivity of Tumor Cells to Methotrexate by Methods of Mathematical Modeling — A. K. Belousova, G. K. Gerasimova, I. N. Vorontsov, and M. M. Greshilov 464 609
Evaluation of Depth of Submersion of Tryptophan Residues in Lipid Phase of Low-Density Serum Lipoproteins — G. E. Dobretsov, M. M. Spirin, and I. M. Karmanskii 475 622
pH-Dependence of Hydrolysis of Tryptophan Ethyl Ester Catalyzed by α-Chymotrypsin — V. Yu. K. Shvyadas, I. Yu. Galaev, and I. V. Berezin 481 629
Study of Protein Kinase and Phosphodiesterase Activity in Stages of the Cell Cycle of *Ph. polycephalum* — N. N. Trakht, I. D. Grozdova, E. S. Severin, and N. V. Gnuchev 487 636
Isolation and Properties of DNA Polymerase from Extremely Thermophilic Bacterium *Thermus aquaticus* YT1 — A. S. Kaledin, A. G. Slyusarenko, and S. I. Gorodetskii 494 644

Engl./Russ.

Study of Interaction of Ribosomes with Unsaturated Fatty Acid — A. D. Sorokina, G. A. Deborin, and I. I. Filippovich 501 652

Volume 45, Number 4, Part 2 April, 1980

Self-Phosphorylation of cAMP-Dependent Protein Kinase from Porcine Brain — Kh. A. Ul'masov, M. V. Nesterova, and E. S. Severin 509 661

Purification and Properties of Low-Molecular-Weight Endoglucanase of Cellulase Complex from *Trichoderma koningii* — I. V. Churilova, V. I. Maksimov, and A. A. Klesov 516 669

Membrane Regulation of Inhibition of Brain Na,K-ATPase by Calcium Ions — S. L. Aksentsev, N. A. Novitskaya, I. M. Okun', T. I. Lyskova, and S. V. Konev 524 679

Soluble High-Molecular-Weight Derivatives of Pancreatic Trypsin Inhibitor. Modification of Pancreatic Trypsin Inhibitor by Soluble Polysaccharides Activated by Titanium Tetrachloride — N. I. Larionova, N. F. Kazanskaya, I. Yu. Sakharov, and G. V. Mityushina 527 683

Structural and Functional State of Ca-Transporting System of Membranes of Sarcoplasmic Reticulum after Freezing — G. F. Zhegunov and A. M. Belous 530 687

Study of *E. coli* Proteinases. Isolation of Proteinase I by Affinity Chromatography on Bacitracin-Sepharose — K. A. Shaginyan, L. S. Izotova, A. Ya. Strongin, and V. M. Stepanov 537 695

Possible Mechanism of Light-Induced Change in Na,K-ATPase Activity of Retinal Photoreceptors of Vertebrates — A. M. Azimova, A. L. Berman, E. G. Skvortsevich, M. G. Matveev, G. G. Gasanov, T. M. Agaev, and V. N. Étingof 545 704

Carboxylic Proteinase from *Trichoderma lignorum* — G. N. Rudenskaya, A. L. Osterman, and V. M. Stepanov, ... 550 710

Superspiralization of Covalently Closed DNA in Presence of Histones H2a, H2b, H3, H4, or Protamine and Extract of *Drosophila melanogaster* Embryos — R. P. Vashakidze, K. G. Karpenchuk, V. I. Naktinis, I. M. Undritsov, and A. D. Mirzabekov 557 718

Preparation of Peptide Maps of Sheep Fetus Haptoglobin Using Immobilized Trypsin — R. U. Beisembaeva, G. M. Abilova, A. T. Mevkh, and V. A. Sklyankina 560 723

Inhibition of Ca-ATPase Activity of Heavy Meromyosin by Phosphorylating Substrate Analogs — E. V. Petushkova, V. M. Risnik, N. I. Sokolova, S. S. Tret'yakova, and Z. A. Shabarova 563 726

Thermal Denaturation and Nuclease Cleavage of Complexes of Stellins A and B with DNA — V. K. Rybin and E. P. Yulikova 569 733

Regulation of α- and β/γ-Thrombin Activity by Heparin and Indole — S. M. Strukova, O. A. Semenova, and E. G. Kireeva 573 738

Reconstitution of Succinate-Ubiquinone Reductase Segment of Mitochondrial Respiratory Chain — V. G. Gavrikov, É. V. Gavrikova, and A. D. Vinogradov 580 747

Volume 45, Number 5, Part 1 May, 1980

Mathematical Model of the Carbohydrate Energy Metabolism. Interaction of Glycolysis, the Krebs Cycle, and H-Transporting Shuttles at Varying ATPase Load — V. V. Dynnik, R. Heinrich, and E. E. Sel'kov 589 771

Expression of a Restriction Fragment of Phage T7 DNA in a Cell-Free Transcription-Translation System from E. coli — V. N. Chesnokov, S. Ya. Golovin, and N. P. Mertvetsov 598 783

Influence of Certain Protein Kinases, Cyclic Nucleotides, and Specific Inhibitors of Phosphorylation Reactions on the Time of Onset of Mitosis in the Mysomycete Physarum polycephalum — I. N. Trakht, I. D. Grozdova, N. N. Gulyaev, E. S. Severin, and N. V. Gnuchev 602 788

Kinetics and Mechanism of the Inactivation and Reactivation of Immobilized Luciferase of Fireflies Luciola mingrelica and the Role of Sulfhydryl Groups in These Processes — L. Yu. Brovko and N. N. Ugarova 607 794
Coefficient of Extinction of Thyroglobulin — E. E. Gussakovskii, A. A. Abramov, T. A. Babaev, T. G. Gulamov, and O. V. Gorina 613 802
Interaction of Creatine Kinase from Rabbit Muscles with a Reactive Derivative of ATP — 4-(N-2-Chloroethyl-N-methylamino)-benzyl-γ-amide of ATP — Z. S. Mkrtchyan, L. S. Nersesova, Zh. I. Akopyan, G. T. Babkina, V. N. Buneva, and D. G. Knorre . . . 616 806
Functional Characteristics of the Fractions of Rat Hemoglobin — N. F. Starodub, I. A. Kriklivyi, V. P. Artyukh, and G. M. Rekun 621 812
Isolation, Purification, and Properties of Acid Ribonuclease of the Lysosomal Fraction of Silkwork Eggs — A. S. Konichev, A. S. Vodoleev, G. A. Sevast'yanova, and Yu. B. Filippovich 628 821
pH Dependence of the Nonenzymatic Hydrolysis of the Ethyl Ester of Tryptophan — V. Yu. K. Shvyadas, I. Yu. Galaev, A. E. Ivanov, and I. V. Berezin 635 829
cAMP-Dependent Protein Kinase from Pig Brain: Subunit Structure, Mechanism of Autophosphorylation, and Dissociation into Subunits under the Action of cAMP — Kh. A. Ul'masov, M. V. Nesterova, and E. S. Severin 639 835
Investigation of the Action of Lactate and Glycolytic Intermediates on Muscle Creatine Kinase — E. P. Chetverikova and N. A. Rozanova 647 845
Two Pathways of Formate Oxidation in Methylotrophic Bacteria — Yu. V. Rodionov and E. V. Zakharova 654 854

Volume 45, Number 5, Part 2 May, 1980

Structural and Functional Peculiarities of the Photosynthetic Apparatus of *Arabidopsis thaliana* (L.) Heynh. Mutants — M. M. Yakubova, A. A. Nazarova, and T. E. Krendeleva. 663 864
Transmembrane Phosphorylation of α-Methylglucoside and Regulation of the Activity of β-Galactoside Permease in the Bacterium *E. coli* K12 — I. Ya. Kalachev, V. N. Gershanovich, and G. I. Burd 670 873
Purification of the Pyruvate Dehydrogenase Complex from Bovine Adrenal Cortex Mitochondria — S. A. Strumilo, S. B. Senkevich, and V. V. Vinogradov. 678 883
Isolation, Purification, and Certain Properties of Tyrosine-Phenol Lyase from *Citrobacter freundii* Cells — V. A. Sysuev, I. V. Tysyachnaya, V. I. Yakovleva, M. B. Kupletskaya, and I. V. Berezin 683 889
Peculiarities of Transcription of the Nuclear Genome at Early Stages of the Regeneration of the Liver. Nuclear DNA-Like RNAs Complementary to Unique and Repeating Sequences of DNA — O. M. Platonov and É. G. Lisitsa 689 896
Distribution of 5'-Nucleotidase Activity in the Subcellular Fractions of the Rabbit Cerebral Cortex — V. S. Turovskii 693 901
Characteristics of Lipids of the Membrane Fractions of Corn Coleoptiles — N. F. Sinyutina and T. V. Voloshina 695 904
Nature of the Changes in Activities of Proteolytic Enzymes (BAPAases) in Germinating Buckwheat and Rye Seeds — Ya. E. Dunaevskii and M. A. Belozerskii 698 908
Alkaline DNase of the Rat Brain — V. A. Ivanov, T. M. Tret'yak, A. I. Gaziev, and B. F. Santalov. 700 912
Comparative Investigation of Peroxide Oxidation of Lipids in the Pigment Epithelium of the Eye of Pigmented Animals and Albinos — A. E. Dontsov, N. L. Sakina, and M. A. Ostrovskii. 709 923
Replication of DNA in Kidneys of Rats of Different Ages — E. L. Levitskii. . 713 929
The Electron Transport Chain of Photosynthesis. Mechanism of Inactivation and Stabilization — S. V. Zaitsev, P. V. Vrzheshch, S. A. Petukhov, I. N. Koruchkin, D. N. Matorin, and S. D. Varfolomeev 717 934
Potentiometric Investigation of Redox Systems of Human Erythrocytes with Potassium Ferricyanide — B. S. Balmukhanov, S. V. Zamula, and F. I. Ataullakhanov 726 945

Volume 45, Number 6, Part 1 June, 1980

Mathematical Model of Carbohydrate Energy Metabolism. Mechanism of the Pasteur Effect – R. Heinrich, V. V. Dynnik, and E. E. Sel'kov 731 963

Some Characteristics of Transcription of Nuclear Genome in Early Stages of Liver Regeneration. RNA Polymerase Activity of Isolated Nuclei – L. M. Lebedeva and O. M. Platonov 739 974

Nuclear Translocation and Influence of cAMP-Dependent Protein Kinase on Transcription – M. V. Nesterova, S. F. Barbashov, A. A. Aripdzhanov, A. Abdukarimov, and E. S. Severin 743 979

Inhibition of Glucose Isomerase from Actinomyces olivocinereus 154 by Polyols – A. V. Ananichev, I. V. Ulezlo, A. M. Egorov, A. M. Bezborodov, and I. V. Berezin 753 992

Effect of Levorin on Incorporation of Individual Amino Acids into Membrane, Ribosomal, and Cell Sap Proteins of Candida albicans – A. S. Obukhovskaya, E. B. Lishnevskaya, and I. M. Tereshin 760 1000

Interaction of 4-(N-2-Chloroethyl-N-methylamino)benzylamides of ATP and AMP with Yeast Hexokinase – V. N. Buneva, D. G. Knorre, and I. O. Pacha 763 1004

Estradiol-Induced Formation of Ceruloplasmin-Synthesizing Polyribosomal Complex in Rats – O. V. Voronina and N. K. Monakhov 768 1010

DNA-Dependent RNA Polymerases from Loach Embryos. General Characterization of Cell-Free RNA-Synthesizing Systems of Differing Degrees of Complexity – L. N. Gauze, V. Ékizashvili, and K. A. Kafiani 773 1017

Similarity of Nonhistone Proteins of Chromatin from Zones of Pea Stem and Root Differentiation. Lack of Pronounced Organ Specificity – Yu. P. Mel'nichuk 781 1027

Isolation and Primary Characterization of Two Forms of Inorganic Pyrophosphatase from Bovine Heart Mitochondria – N. V. Efremovich, E. S. Volk, A. A. Baikov, and Yu. A. Shakhov 785 1033

Structure of Gangliosides from Bovine Lymphocytes under Normal Conditions and in Lympholeukemia – É. V. Dyatlovitskaya, A. E. Zablotskaya, Yu. V. Volgin, Yu. M. Azizov, and L. D. Bergel'son 791 1041

Influence of Cyclic Nucleotides and Hormones on Homologous Methylation in Homogenates of Rat Bone Marrow Nuclei – N. A. Fedorov and G. V. Ermil'chenko 796 1048

Molecular and Genetic Mechanisms of Regulation of Synthesis of Individual Types of Rat Hemoglobin – N. F. Starodub 800 1052

Volume 45, Number 6, Part 2 June, 1980

Nature of Fibrinogen B – Ethanol- and 2-Naphthol-Precipitable Complexes of the Fibrin Monomer – D. M. Zubairov and R. I. Litvinov 805 1059

Regulation of Alternative Electron Transport Pathway in Candida lipolytica Mitochondria – A. G. Medentsev and V. K. Akimenko 812 1068

Connection between Rate of ATP-Consuming Processes and ATP Concentration in Intact Erythrocytes – F. I. Ataullakhanov, V. N. Buravtsev, V. M. Vitvitskii, B. F. Dibrov, A. M. Zhabotinskii, A. V. Pichugin, B. N. Kholodenko, and L. I. Érlikh 817 1075

Binding of [^{125}I]Tyrosyl-Bradykinin to Subcellular Fractions of Vessels – S. S. Trapeznikova, I. V. Lapteva, and M. A. Kozlova 821 1080

Influence of Gradual Chemical Modification on Activity and Thermostability of Soluble and Immobilized Glucoamylase – V. B. Gerasimas, V. M. Chernoglazov, and A. A. Klesov. 826 1086

Inhibitor Analysis as an Approach to a Study of the Regulation of ATP and Pyrophosphate Biosynthesis in Mitochondria – T. Pullaiya, Yu. A. Shakhov, S. É. Mansurova, and I. S. Kulaev 831 1093

Factors causing Oligomerization of Walleye Pollock Rhodopsin before and after Solubilization by Sodium Dodecylsulfate – V. P. Korchagin 835 1098

Investigation of Energy Supply for Transfer of Plasmid R 100-1 during Conjugation of Escherichia coli Cells – Ya. A. Berzhinskene, L. Yu. Zizaite, Z. A. Baronaite, and L. L. Grinyus 839 1103

	Engl.	Russ.
Thymidine Kinase Activity, Intracellular Content of TTP, and DNA Synthesis in Transplantable Hepatomas and Lymphoid Tissues of the Host Organism — G. I. Vornovitskaya, E. S. Gershtein, and V. S. Shapot	846	1113
Regulation of Oxygen Uptake and Cytochrome Oxidase Activity after Artificial Increase in Number of Mitochondria in Fish Embryos — N. B. Abramova, V. P. Korzh, and A. A. Neifakh	855	1124
Interaction of Histones with DNA in Chromatin. New Method of Covalent Binding of Histones to DNA Convenient for Their Localization on DNA — E. S. Levina, S. G. Bavykin, V. V. Shik, and A. D. Mirzabekov	862	1133
Template Activity of Chromatin from Cerebellum and Large Hemispheres of Rat Brain — L. O. Grumbkova and A. I. Bokhon'ko	872	1146

Volume 45, Number 7, Part 1 July, 1980

	Engl.	Russ.
Investigation of the Interaction of Mitochondrial Creatine Kinase with the Membranes of the Mitochondria — T. Yu. Lipskaya, V. D. Templ, L. V. Belousova, E. V. Molokova, and I. V. Rybina	877	1155
Comparative Activity of Plasmin, Thrombin, and Trypsin on Chromogenic Arginine-p-nitroanilides — Oyin Somorin and Seiichi Tokura	887	1167
Study of the Mechanism of the Action of 2,4-Dinitrofluorobenzene on Bacterial Luminescence in vitro — V. A. Kratasyuk and A. M. Fish	895	1175
Possibility of the Participation of Pyrophosphate in the Biosynthesis of ADP and ATP from Exogenous Adenine by a Culture of Corynebacterium Species VSTI-301 — V. D. Butukhanov, M. A. Bobyk, V. Zh. Tsyrenkov, and I. S. Kulaev	901	1182
Peculiarities of the Transcription of the Nuclear Genome at the Early Stages of Liver Regeneration. Effect of Cytoplasmic Factors on the RNA Polymerase Activity of Isolated Nuclei — O. M. Platonov and S. M. Zhelyabovskaya	907	1189
Action of Thyroid Hormone on the Adenylate Cyclase System in Various Organs of Animals — Ya. Kh. Turakulov, S. K. Khalikov, T. S. Saatov, and S. N. Dalimova	912	1196
Influence of the Ionic Composition of the Medium on the Inhibition of Amino Acid Transport in Candida albicans by Levorin — A. S. Obukhovskaya, E. B. Lishnevskaya, and I. M. Tereshin	915	1201
Isolation and Certain Properties of the Very High Density Lpm-Lipoprotein from Mink Serum — V. I. Ermolaev and O. K. Baranov	921	1208
The Existence of a Form of T-Antigen of SV40 Virus Incapable of Interaction with DNA — M. A. Shlyankevich, A. V. Polotskaya, O. B. Drize, T. A. Ivanova, and V. S. Shapot	926	1215
Energy Metabolism of the Mitochondria and Contractility of the Bundles of Glycerinated Myocardial Fibers in Traumatic Shock — G. G. Dumbadze, G. G. Shamulashvili, L. Yu. Razamat, L. I. Todua, and G. A. Panchulidze	931	1222
Characteristics of 6-Phosphogluconate Dehydrogenase of the Livers of Healthy and Tumor-Bearing Rats — Z. V. Gorbach, S. S. Maglysh, and Yu. M. Ostrovskii	934	1226
DNA-Dependent RNA Polymerases of Loach Embryos. Variation of the Activity of Forms I and II of the Enzyme in the Course of Development — V. K. Ékizashvili, L. N. Gauze, and K. A. Kafiani	939	1233

Volume 45, Number 7, Part 2 July, 1980

	Engl.	Russ.
Selection of a Model of Association of Phosphofructokinase from Rabbit Muscles by Mathematical Modeling — I. I. Rapanovich, S. Zh. Tsybanov, Yu. V. Rodionov, and Z. S. Kagan	949	1245
A Mathematical Model of the Energy Metabolism of the Erythrocytes. Independence of the Normalized Characteristic of Glycolysis from Individual Peculiarities of the Donors — F. I. Ataullakhanov, V. N. Buravtsev, V. M. Vitvitskii, B. F. Dibrov, A. M. Zhabotinskii, A. V. Pichugin, B. N. Kholodenko, and L. I. Érlikh	967	1267

Investigation of the Nature of Inactivation of Membrane ATPase in a Mutant of *Escherichia coli* with Genetically Damaged ATPase — A. V. Chetkauskaite, K. S. Planutis, A. Z. Zimkus, V. K. Akimenko, and L. L. Grinyus 972 1274
Detection of Phosphorylated Pyrimidine Precursors of Riboflavin in Yeasts — E. M. Logvinenko, G. M. Shavlovskii, A. E. Zakal'skii and É. Z. Senyuta 980 1284
Isoenzyme Composition of Cathepsin D from the Bovine Hypothalamus — N. A. Barkhudaryan, T. N. Akopyan, and A. A. Galoyan 987 1293
Cyclic Transport of Electrons and Formation of the Membrane Potential in Chromatophores of the Nonsulfur Purple Bacterium *Rhodospirillum rubrum* — V. G. Remennikov and V. D. Samuilov 991 1298
Change in the Composition of Nucleotide Sequences in the Transcriptionally Active Fraction of Rat Liver DNA under Induction by Cortisol . . . . . — N. A. Dudareva, V. S. Dashkevich, and R. I. Salganik 997 1305
Inhibiting Effect of Copper Compounds on the Oxidative Demethylation of Dimethylaniline by Cumene Hydroperoxide with the Participation of Cytochrome P-450 — V. P. Kurchenko, S. A. Usanov, and D. I. Metelitsa. 1002 1312
Substrate Specificity of Intracellular Serine Proteinase of *Bacillus subtilis*. Proteolysis of the B-Chain of Insulin and Ribonuclease A and Kinetics of the Hydrolysis of p-Nitroanilide Substrates — A. N. Markaryan, V. I. Ostoslavskaya, V. K. Shvyadas, L. D. Yakusheva, L. A. Lyublinskaya, A. Ya. Strongin, and V. M. Stepanov 1007 1319

Volume 45, Number 8, Part 1 August, 1980

Interaction between Heart Mitochondrial Creatine Kinase and Oxidative Phosphorylation — T. Yu. Lipskaya, V. D. Templ, L. V. Belousova, and E. V. Molokova 1015 1347
Photophosphorylation with Participation of Adsorbed Chlorophyll. Separation of Light and Dark Stages — N. V. Goncharova, M. G. Gol'dfel'd, and L. G. Dmitrovskii. . 1019 1352
Substrate Specificity of Acylase I from Porcine Kidney — V.-Yu. K. Shvyadas, I. Yu. Galaev, N. A. Galstyan, and I. V. Berezin 1027 1361
Steady-State Kinetics of Reactions Catalyzed by Pyruvate Dehydrogenase Complex from Bovine Adrenal Glands — S. A. Strumilo, S. B. Senkevich, and V. V. Vinogradov 1030 1365
Purification and Properties of Glucose-6-phosphate and 6-Phosphogluconate Dehydrogenases from Pseudomonas oleovorans — A. P. Sokolov, S. V. Luchin, and Yu. A. Trotsenko 1034 1371
Comparative Study of Oxidation of 1-Naphthol by Cytochrome P-450 and Oxyhemoglobin — D. I. Metelitsa and E. M. Popova 1041 1379
Structural Heterogeneity of Chromatin Isolated by Electrophoretic Methods — E. P. Kharchenko, K. I. Shestak, N. N. Nalivaeva, and T. V. Sokolova 1045 1385
Isolation and Characterization of Membrane-Active Glycoproteins of Liver Tissue — M. M. Potselueva, Yu. V. Evtodienko, and I. N. Kremlev 1056 1399
Reversible Oxidation—Reduction of NAD by Hydrogen Catalyzed by Soluble Hydrogenase from Alcaligenes eutrophus Z-1 — E. E. Pinchukova and S. D. Varfolomeev. 1061 1405
Influence of Exogenous RNA on Activity of Poly(A) · Oligo(dT)-Dependent DNA Polymerase in Mouse Tumors — V. P. Tomsons, K. N. Verevkina, G. B. Pyrinova, and R. I. Salganik 1067 1412
Proteins of Nuclear Matrix and Their Biosynthesis in Rat Liver and Zajdela Hepatoma Cells — S. N. Kuz'mina, T. V. Bul'dyaeva, and I. B. Zbarskii. 1071 1417
Participation of Ferredoxin in Pseudocyclic Electron Transport in Isolated Pea Chloroplasts — B. N. Ivanov, T. P. Red'ko, V. L. Shmeleva, and E. N. Mukhin 1078 1425
Study of the Cause of the Appearance of Cyanide-Resistant Respiration in the Yeast Candida lipolytica — V. K. Akimenko and A. G. Medentsev. 1084 1433

Volume 45, Number 8, Part 2 August, 1980

Nature of Enzyme Intermediates with C-Terminal Products of Substrate Hydrolysis by Carboxypeptidase A and Chymotrypsin. Use of Principle of Linearity of Free Energies — L. V. Kozlov. 1091 1442

DNA Replication and Methylation in Cells of Tobacco Suspension Culture and Influence of Auxin — E. A. Bashkite, M. D. Kirnos, G. I. Kir'yanov, N. I. Aleksandrushkina, and B. F. Vanyushin 1096 1448

Heterogeneity of DNA Methylases from *Escherichia coli* CK cells — I. I. Inkol'skaya, N. G. Lopatina, and S. S. Debov. 1103 1457

Conformation and Thermostability of Soluble Cytochrome P-450 and Cytochrome P-450 Incorporated into Liposomal Membrane — V. Yu. Uvarov, G. I. Bachmanova, A. I. Archakov, A. G. Sukhomudrenko, and K. N. Myasoedova. 1108 1463

Glutathione Peroxidase Activity of Pigmented Epithelium of Frog Eye — É. Yu. Yusifov, N. L. Sakina, and A. E. Dontsov 1113 1470

Inhibition of Lipid Peroxidation by Melanoprotein Granules — N. L. Sakina, A. E. Dontsov, G. P. Kuznetsova, M. A. Ostrovskii, and A. I. Archakov . 1117 1476

Binding of 70S Ribosomes to Membrane Structures of *Escherichia coli in vitro* — V. G. Orlov, A. I. Korotyaev, and T. P. Krolichenko 1121 1481

Purification and Properties of NAD Reductase from the Phototrophic Bacterium *Thiocapsa roseopersicina* — O. F. Korsunskii and I. N. Gogotov 1126 1488

Purification and Properties of Cytochrome c_{552} from the Purple Sulfur Bacterium *Thiocapsa roseopersicina* — N. A. Zorin and I. N. Gogotov. . . 1134 1497

Dependence of Thermostability of Ca-ATPase from Sarcoplasmic Reticulum on Its Concentration in the Membrane — N. S. Shcherbakova, V. B. Ritov, Yu. S. Tarakhovskii, and Yu. P. Kozlov. 1139 1503

Structural Organization of Membranes Reconstituted from Phospholipids and Subchromatophore Pigment—Protein Complexes — A. A. Kondrashin, V. D. Samuilov, and V. N. Frolov. 1144 1510

Insulin—Receptor Interaction on Plasma Membranes of Liver Cells and Isolated Lipocytes of Rats with Differing Insulin Levels in Blood — S. G. Lyubarskaya, N. K. Gracheva, A. P. Knyazeva, and L. K. Starosel'tseva. 1149 1517

Isolation and Characterization of Lytic Enzyme from *Bacillus subtilis* 797 — V. P. Borovikova, V. E. Aksenovskaya, G. I. Lavrenova, O. V. Kislukhina, K. A. Kalunyants, and V. M. Stepanov. 1154 1524

Volume 45, Number 9, Part 1 September, 1980

Competitive Binding of Histones to DNA and the Problem of Chromatin Self-Assembly — V. D. Paponov 1163 1539

Carbohydrate Composition of Wall-Eyed Pollock Rhodopsin — V. P. Korchagin and S. A. Shukolyukov 1171 1549

Study of the Role of Sulfhydryl Groups in the Mechanism of Inactivation of Bacterial Formate Dehydrogenase — M. M. Dikov, A. P. Osipov, and A. M. Egorov 1175 1554

Chromophore Composition and Nature of the Absorption Spectra of Phycobiliproteins — I. N. Stadnichuk, L. A. Mineeva, and M. V. Gusev . 1180 1560

Affinity Modification of Inorganic Pyrophosphatase from Yeast by Methyl Phosphate — I. O. Lagutina, V. A. Sklyankina, and S. M. Avaeva 1187 1568

Isolation and Purification of Bacterial Luciferase from *Photobacterium fischeri* for Analytical Purposes — V. N. Shumikhin, V. S. Danilov, Yu. A. Malkov, and N. S. Egorov 1193 1576

Immobilized Luciferase from the Fireflies *Luciola mingrelica*. Change in the pH Dependence of the Catalytic Activity and Stability of the Enzyme after Immobilization on Various Polysaccharide Carriers — L. Yu. Brovko, N. V. Kost, and N. N. Ugarova 1199 1582

Isolation and Characterization of Polypeptide Enzymes Obtained in Limited Proteolysis of Botulinic Toxin Type A — I. V. Shibaeva, V. A. Kolesnikova, I. S. Kazdobina, and K. K. Ivanov 1205 1589
Immobilization of DNA on Modified Inorganic Sorbents — V. I. Latich, V. P. Varlamov, N. N. Semenova, and S. V. Rogozhin 1212 1597
DNA Polymerase from Embryos of the Sea Urchin *Strongylocentrotus intermedius*. Purification and Certain Properties — L. L. Terent'ev, N. A. Terent'eva, and V. A. Rasskazov 1217 1603
Investigation of the Membrane Potential of *Bacillus subtilis* and *Escherichia coli* Cells by the Method of Penetrating Ions — L. L. Grinyus, R. Yu. Daugelavichyus, and G. A. Al'kimavichyus . . . 1222 1609

Volume 45, Number 9, Part 2 September, 1980

Electrophoretic Investigation of Proteins of Potato Tuber Plasmalemma — É. P. Ladyzhenskaya, D. K. Kadyrzhanova, N. V. Lyubimova, M. A. Protsenko, N. P. Korableva, and L. V. Metlitskii. 1231 1619
Heterogeneity of Cationic Proteins of the Chromatin of Various Tissues — E. P. Kharchenko, N. N. Nalivaeva, and T. V. Sokolova. 1239 1630
Reversible Generation of an Electric Current by Reconstituted Mitochondrial Transhydrogenase — L. A. Drachev, A. A. Kondrashin, A. Yu. Semenov, and V. P. Skulachev. 1247 1639
Change in the Phospholipid Composition and Antioxidant Activity of Lipids of the Erythrocytes in the Presence of Mammary Gland Tumors and Their Radiotherapy — N. Yu. Kal'nova and N. P. Pal'mina 1252 1646
Composition of the Compact Chromosome of Anabaena variabilis — A. V. Kozlov and E. Yu. Dmitrieva 1258 1654
Investigation of Glycopeptides of Dog Fibrinogen — G. Sh. Chenborisova, D. M. Zubairov, V. N. Timerbaev, and A. L. Storozhev. 1265 1663
Exchange of Proteins of Rat Liver Chromatin during the Induction of RNA Synthesis by Electrostimulation of the Hypothalamus — V. I. Tyulenev, A. A. Kapralov, and A. I. Masyuk 1270 1669
Change in DNA–Histone Contacts during Thermal Denaturation of DNP and Nucleosomes — L. R. Ptitsyn, G. Ya. Kolomiitseva, and A. P. Polokainen. 1275 1675
Action of a Polycationic Antibiotic Polymyxin B on the Respiratory Activity of Rat Liver Mitochondria — N. G. Kapitanova, E. A. Korepanova, G. M. Kolesova, and V. F. Antonov. 1280 1682
Hydrolysis of Microcrystalline Cellulose under the Action of Polyenzyme Cellulase Complexes of Various Origins — A. A. Klesov and I. V. Churilova 1282 1685
Some Peculiarities of the Realization of Genetic Information in Inbred and Heterozygous Rats in the Normal State and after Partial Hepatectomy — A. I. Bozhkov, Ts. M. Shereshevskaya, N. M. Martynyuk, and V. G. Shakhbazov 1291 1696
Role of New Formation of Protein in the Decomposition of Anomalous Proteins in Escherichia coli — B. R. Belitskii and R. S. Shakulov 1297 1704

Volume 45, Number 10, Part 1 October, 1980

Allosteric Properties of CF_1-ATPase from Chloroplasts — A. N. Mal'yan. 1303 1731
pH-Dependence of Esterolytic Activity of Terrilytin Proteases — M. D. Bol'shakova, A. A. Selezneva, and I. M. Tereshin. 1310 1740
Metabolism of Lipid-Transporting Proteins of Rat Liver under Normal Conditions and after Administration of Phenobarbital — M. M. Gapparov and B. G. Lyapkov. 1313 1744
Activation of Na,K-ATPase from Nerve Cell Microsomes by Acetylcholine in a Model System — N. R. Elaev. 1317 1749

Injury of Cytochrome c_{553} in Cells of Nonphotosynthetic Mutants of *Chlamydomonas reinhardii* — V. V. Roshchina, V. G. Ladygin, A. A. Mutuskin, K. V. Pshenova, and L. E. Mazhorova..... 1322 1755
Influence of Peptide Hormone Fragments and Thyroliberin on Homeostasis of Glucose in Mouse Blood — N. V. Myshlyakova, V. E. Klusha, and G. I. Chipens..... 1327 1761
Oligomerization of Integral Membrane Proteins during Lipid Peroxidation — V. P. Korchagin, L. B. Bratkovskaya, A. A. Shvedova, Yu. V. Arkhipenko, V. E. Kagan, and S. A. Shukolyukov..... 1332 1767
Properties of Membrane-Bound Acetylcholine Receptor from Optic Ganglia of the Squid *Berryteuthis magister* — V. P. Demushkin and Yu. V. Kotelevtsev..... 1337 1773
Inhibition of Fibrin Polymerization by Fragment D Obtained from Fibrinogen and by Its Dimer from Stabilized Fibrin. Evidence of Biphasic Nature of Inhibition — T. I. Platonova, A. A. Musyalkovskaya, V. M. Tolstykh, and V. A. Belitser..... 1343 1780
Characteristics of Intracellular Proteolysis in *Bacillus subtilis* — B. R. Belitskii and R. S. Shakulov..... 1349 1788
Cyclic Nucleotide Phosphodiesterase from Wheat Germinants. Purification, Properties, and Influence of Systemic Fungicides — V. L. Igumenov and R. N. Etingof..... 1357 1797
Glycerolipid Biosynthesis *in vivo* in Subcellular Fractions of Greening Wheat Germinants — A. N. Grechkin, S. I. Pankratova, and I. A. Tarchevskii..... 1363 1804
Study of Adenylate Cyclase from Rat Thymus and Spleen Lymphocytes — N. P. Dmitrenko, S. V. Komissarenko, and T. V. Goroshnikova..... 1368 1810

Volume 45, Number 10, Part 2 October, 1980

Components of Cyclic Electron Transport in Stromal Subchloroplast Particles Enriched with Photosystem I — T. E. Krendeleva, A. A. Kononenko, L. M. Fadeeva, and N. V. Nizovskaya. 1377 1819
Content of N-Acetylneuraminic Acid in Water-Soluble and Membrane Fractions of Different Analyzers of Cerebral Cortex — A. A. Neokesariiskii and V. S. Turovskii. 1385 1829
Kinetics and Thermodynamics of Acetyl-L-Methionine Hydrolysis and Synthesis Catalyzed by Acylase I from Porcine Kidney — V.-Yu. K. Shvyadas, I. Yu. Galaev, and I. V. Berezin 1388 1833
The Effect of Melittin and Its Tetraacetyl Derivative on Rat Liver Mitochondria — K. F. Shol'ts, G. I. Reznik, N. A. Solov'eva, L. G. Snezhkova, A. I. Miroshnikov, and A. V. Kotel'nikova 1394 1840
Investigation of Structural Organization of the Bacterial Nucleoid by Means of Endonucleolysis — E. P. Kharchenko and K. I. Shestak . . . 1402 1850
Conformation of Soluble Cytochrome b_5 and Cytochrome b_5 Incorporated Into Artificial Membrane — V. Yu. Uvarov, G. I. Bachmanova, A. I. Archakov, S. Z. Khaitina, and A. G. Sukhomudrenko. 1410 1859
Complex Nature of the Inhibitory Effect of Cytosol on Transcription in Isolated Rat Liver Nuclei — M. N. Gutnikova, Yu. I. Mitrokhin, P. Ya. Boikov, and I. N. Todorov 1414 1863
Serine Proteinase from *Thermoactinomyces vulgaris* Strain INMI-4a — V. M. Stepanov, G. N. Rudenskaya, N. G. Nesterova, T. I. Kupriyanova, Yu. M. Khokhlova, I. A. Usaite, L. G. Loginova, and E. A. Timokhina. . 1420 1871
Heterogeneity of Amino Acid Pool of Yeast Cell with Respect to Rate of Carbon Turnover — E. G. Davidova and V. V. Rachinskii 1429 1881
Modulation of Half-Life of Poly(A^+)mRNA in Rat Liver and Brain Cells during Embryonic and Postnatal Development — P. Z. Khasigov, D. A. Kuznetsov, and V. F. Glazkov. 1433 1886
Mechanism of Inhibition by Chlorgyline and Deprenyl of Oxidative Deamination of Tyramine by Rat Liver Mitochondrial Monoamine Oxidase — I. S. Severina 1443 1897

Volume 45, Number 11, Part 1 November, 1980

Interaction of Phosphorylase B with SH Reagents and Study of the Properties of the Modified Enzyme — P. L. Vul'fson, L. K. Skolysheva, and S. E. Severin. 1453 1923

Characteristics of Polyribosomal Complexes of the Cytoplasm of Loach Embryonic Cells — L. A. Strelkov, N. B. Chiaureli, and K. A. Kafiani . 1462 1934

Peroxidase Properties of Complexes of Sheep Haptoglobins with Hemoglobins of Various Animal Species — R. U. Beisembaeva. 1470 1944

Bimolecular Protein—Protein Interaction within Microcapsules — R. B. Aisina, I. I. Gracheva, L. P. Karpukova, and N. F. Kazanskaya. 1474 1949

Production and Certain Properties of Immobilized Cystathionine-β-Synthase — S. V. Amontov, É. A. Tolosa, and E. V. Goryachenkova 1484 1960

The System of Microsomal Oxidation during Development and Aging — V. V. Lemshko. 1487 1964

Action of GTP and NaF on Adenylate Cyclase of the Rabbit Heart, Activated by Guanyl-5'-ilimidodiphosphate — P. V. Avdonin, M. P. Panchenko, and V. A. Tkachuk. 1492 1970

Analysis of DNA-Dependent DNA Polymerase Induced by Herpes Virus Papio (HVP) in Producing Cells — A. G. D'yachenko, L. Ya. Beriya, L. D. Matsenko, V. V. Kakubava, L. V. Kokosha, and V. V. Timanovskaya. 1500 1980

Covalent Bonding of Products of Hydroxylation of Codeine to Albumin and the Microsome Membrane — A. I. Archakov, G. F. Zhirnov, A. I. Maiskii, and I. E. Kovalev 1506 1988

Peculiarities of the Hydrolysis of ε-ATP by CF_1-ATPase of Pea Chloroplasts — N. P. Tatarintsev and A. D. Makarov. 1510 1994

Study of the Stoichiometry of the Decomposition of CTP during Peptide Synthesis on the Ribosome. Factor-Independent GTPase and ATPase of Ribosome Preparations — D. G. Kakhniashvili, S. K. Smailov, and L. P. Gavrilova. 1514 1999

Analysis of the Structural Organization of the Chromatins of Two Divisions of the Rat Brain with Micrococcal Nuclease — L. O. Grumbkova and A. I. Bokhon'ko. 1526 2013

Volume 45, Number 11, Part 2 November, 1980

Isolation of NAD Kinase from Pigeon Heart — E. R. Bulygina and V. I. Telepneva 1533 2019

Change in the Specific Methylation of DNA in Tissues of Healthy and Tumor-Bearing Rats (with Sarcoma 45) under the Influence of an Alkylating Type Active Carcinolytic — J. V. Garibyan, G. M. Stepanyan, I. S. Danielyan, Yu. S. Babayan, S. G. Arutyunyan, B. T. Garibdzhanyan, and V. M. Aslanyan 1540 2028

A New Method of Introducing Lysophospholipids into Biological Membranes. Influence of Lysophosphatidylcholine on the Activity of Membrane-Bound Enzymes — É. V. Dyatlovitskaya, A. F. Lemenovskaya, A. T. Valdnietse, E. V. Sinitsyna, and L. D. Bergel'son 1546 2036

Metabolism of ^{14}C-Labeled Soluble Proteins of Bombyx mori Tissues at the Concluding Stage of Larval Development — S. M. Klunova, T. I. Altsybeeva, and Yu. B. Filippovich 1553 2044

Some Properties of Metlegoglobin Reductase of Lupine Nodules — A. F. Topunov, S. S. Melik-Sarkisyan, L. A. Lysenko, G. P. Karpilenko, and V. L. Kretovich. 1560 2053

Enzymatic Synthesis and Properties of DNA Complementary to Foot and Mouth Disease Virus RNA — I. N. Titov, S. G. Arsenyan, A. G. Tatosyan, and V. L. Uzyumov. 1565 2059

The Multicomponent System of Estrogen-Binding Proteins of the Liver. Isolation and Comparative Characterization of the 4-5S and Higher-Molecular-Weight Proteins of the Rat Liver That Specifically Bind Estradiol — Ya. Yu. Kondrat'ev, A. N. Smirnov, and O. V. Smirnova. 1570 2065

Participation of Plasma Membranes in the Transport of Glucocorticoids into Target Cells — S. Kisling, V. V. Adler, L. V. Dmitrieva, V. I. Mechitov, A. V. Polotskaya, and V. S. Shapot. 1579 2076

Metalloproteinase from Bacillus subtilis – Extracellular and Intracellular Enzymes – K. A. Shaginyan, L. S. Izotova, Yu. V. Iomantas, A. Y. Strongin, and V. M. Stepanov 1585 2083
Production of Serratia marcescens Nuclease in a Homogeneous State and Study of the Physicochemical Properties of the Enzyme – M. N. Filimonova, N. P. Balaban, F. R. Sharipova, and I. B. Leshchinskaya 1596 2096
Trypsin Inhibitor from Buckwheat Seeds – S. N. Pokrovskii and M. A. Belozerskii 1603 2104

Volume 45, Number 12, Part 1 December, 1980

Localization of Secreted Enzyme-Induced Repression of Its Own Synthesis by Cells – V. V. Yurkevich, G. T. Kozyreva, and N. S. Kovaleva 1609 2115
Inhibition of Mitochondrial Respiratory Pumps by Brönsted Acids – A. A. Sharyshev, E. I. Dubinskaya, and L. S. Yaguzhinskii 1614 2121
Effect of pH on Hydrolysis of Various Substrates by Cholinesterase – Yu. L. Langel, M. A. Spéék, and Ya. L. Yarv 1621 2130
Glucose Metabolism in Isolated Bacteroids of Lupine Nodules – V. I. Romanov, B. F. Ivanov, N. G. Fedulova, M. V. Raikhinshtein, I. E. Chermenskaya, A. A. Zemlyanukhin, and V. L. Kretovich 1628 2139
Direct Testing of Antivitamin Action of Parenterally Administered Thiaminase – S. S. Puzach and Yu. M. Ostrovskii 1633 2146
Heterogeneity of Brain-Specific Proteins of Group S100 – A. B. Poletaev and T. I. Kupriyanenko 1638 2153
β-Glycosidase System of Sunflowers. Isolation of Enzymes and Study of Their Substrate Specificity – Yu. A. Zhdanov, R. M. Kessler, N. S. Kolokolova, Yu. D. Beletskii, and K. B. Sherstnev 1643 2158
Effect of Thenoyltrifluoroacetone on Functions of Mitochondria and Other Membrane Formations – A. I. Galgel'gans, A. V. Shkinev, M. V. Zamaraeva, O. V. Krasil'nikov, V. I. Ternovskii, and B. A. Tashmukhamedov 1649 2165
Interaction of Gastropod Brain Propionylcholinesterases with Substrates and Inhibitors – G. M. Grigor'eva 1658 2176

Volume 45, Number 12, Part 2 December, 1980

Formation, Properties, and Methylation of Heparin–DNA Complexes *in vitro* – L. A. Lyapina and I. B. Kudryashova 1669 2189
Streptomycin-3"-phosphotransferases from Cells of Streptomycin-Resistant Strains of *Escherichia coli* – V. L. Ganelin, L. G. Vinogradova, V. N. Stepanshina, R. M. Petyushenko, A. I. Chernyshev, S. E. Esipov, Yu. O. Sazykin, and S. M. Navashin 1676 2198
Kinetic Mechanism of L-Aspartic Acid Synthesis from Ammonium Fumarate Catalyzed by Free and Immobilized *Escherichia coli* Cells – N. N. Zueva, V. N. Shcherbakova, V. I. Yakovleva, I. V. Avsyuk, Chan Tkhi Mai, and I. V. Berezin 1683 2206
Kininogenase Activity of Cathepsins D – O. G. Ogloblina, V. V. Ruanet, O. V. Kazakova, T. S. Paskhina, and V. N. Orekhovich 1692 2217
Study of Binding of α- and βγ-Thrombin to Heparin by the Method of Difference Spectroscopy in Ultraviolet Region – O. A. Semenova and S. M. Strukova 1699 2225
Role of Divalent and Univalent Cations in Functioning of Myosin ATPase – D. I. Levitskii and B. F. Poglazov 1705 2233
Kinetics and Mechanism of Individual and Combined Oxidation of o-Dianisidine and Bismuthol I by Hydrogen Peroxide Catalyzed by Horseradish Peroxidase – N. N. Ugarova, I. M. Popova, I. F. Dolmanova, and G. N. Shekhovtsova . 1712 2243
